coastaldesignconsultants.com

Job Requirements:

Responsible charge of computer aided CAD work and development of construction plans for residential and commercial site development, utilities, roadway, and various other multidiscipline, civil engineering projects.

Specific work responsibilities are:

- Working with engineers to transform design markups into construction plans.
- Civil site development including roads, water, and sewer infrastructure.
- Grading and drainage design associated with stormwater conveyance, attenuation, and treatment systems.
- Construction plans preparation using AutoCAD Civil 3D computer software.
- Quantity takeoff and estimating of project related infrastructure.
- Minor responsibilities shall be to coordinate with engineers and office personnel.

Compensation:

Minimum starting wage rate will be \$18.50 per hour, plus company benefits based on employee experience, references, and related knowledge of job responsibilities. Coastal also has both a retirement savings plan and a company bonus plan for qualified employees. Coastal pays 80% of employee's health insurance cost and offers fifteen paid days per year of personal time off to starting employees. Coastal awards an additional day of personal time off for each year worked after the initial year, for the next 5 years, for a total of five additional days. This would amount to a total of twenty personal days off per year.

Work Environment:

Coastal is a full-service civil engineering firm. We produce projects in West Central Florida with primary emphasis in Hernando, Hillsborough, Pasco, and Pinellas counties. Coastal is looking for individuals who are collaborators and who will fit into our office culture. Currently, our office has eleven employees. We are all committed to providing our clients with high quality work products and services in a timely manner. Our clients are in various industries and have unique concepts. We provide services to both private and government entities.
